

SLIK

1 Insert needle into the big filling hole.

Caution:

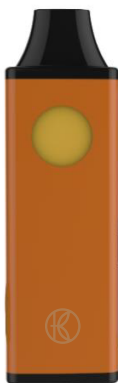

1. Warm up the oil and maintain the temperature precisely at 90 °F -130 °F /32 °C -55 °C
2. Do not overfill or allow oil to enter the side two air holes.

2 Capping the mouthpiece vertically within 1 minute after filling.

Caution:

1. Fill first, seal first. Please make sure the mouthpiece is fully sealed.
2. Failure to cap the mouthpiece immediately after filling may cause leakage.

3 Allow your disposable to stand for at least 24 hours or more and vape.

Caution:

During this time, oil is priming the atomizer. The rate that the atomizer saturates is dependent upon the viscosity of the oil. More viscous
